

# TABLE QUIZ

**Team Name:** \_\_\_\_\_

**IDENTIFY THE FOLLOWING V's in SCIENCE:**

No.	SCIENTIFIC TERM	V WORD
e.g.	A brand name for a drug for men with impotence	<b>Viagra</b>
1	A space in which there is no matter & in which sound cannot be heard	
2	Thin-walled blood vessel which carries blood from the capillaries towards the heart	
3	The second planet from the Sun in the solar system	
4	The many finger-like projections that line the wall of the small intestine & increase its surface area	
5	In biology, the differences between individual members of the same species	
6	The speed of an object moving in a particular direction	
7	Tiny infectious organism that can replicate inside cells of living hosts	
8	A space within a plant cell which contains a sap to keep the cell firm	
9	The SI unit of electric potential	
10	The amount of space taken up by a body or mass in fluids, measured in cubic metres	
11	One of the lower chambers of the heart that receives blood from the atrium & pumps it into arteries	
12	Element in the periodic table that has the chemical symbol 'V'	
13	A physical quantity that has both magnitude & direction, as opposed to a scalar quantity	
14	A substance administered, often by injection, to stimulate antibodies to prevent disease	
15	A mass of air or water that spins very fast & pulls objects into its empty centre	
<b>Your Score =</b>		

# TABLE QUIZ

Team Name: \_\_\_\_\_

**IDENTIFY THE FOLLOWING V's in SCIENCE:**

No.	SCIENTIFIC TERM	V WORD
e.g.	A brand name for a drug for men with impotence	<b>Viagra</b>
1	A space in which there is no matter & in which sound cannot be heard	<b>Vacuum</b>
2	Thin-walled blood vessel which carries blood from the capillaries towards the heart	<b>Vein</b>
3	The second planet from the Sun in the solar system	<b>Venus</b>
4	The many finger-like projections that line the wall of the small intestine & increase its surface area	<b>Villi</b>
5	In biology, the differences between individual members of the same species	<b>Variation</b>
6	The speed of an object moving in a particular direction	<b>Velocity</b>
7	Tiny infectious organism that can replicate inside cells of living hosts	<b>Virus</b>
8	A space within a plant cell which contains a sap to keep the cell firm	<b>Vacuole</b>
9	The SI unit of electric potential	<b>Volt</b>
10	The amount of space taken up by a body or mass in fluids, measured in cubic metres	<b>Volume</b>
11	One of the lower chambers of the heart that receives blood from the atrium & pumps it into arteries	<b>Ventricle</b>
12	Element in the periodic table that has the chemical symbol 'V'	<b>Vanadium</b>
13	A physical quantity that has both magnitude & direction, as opposed to a scalar quantity	<b>Vector</b>
14	A substance administered, often by injection, to stimulate antibodies to prevent disease	<b>Vaccine</b>
15	A mass of air or water that spins very fast & pulls objects into its empty centre	<b>Vortex</b>
<b>Your Score =</b>
