

TABLE QUIZ

Team Name: _____

IDENTIFY THE FOLLOWING 'G's in SCIENCE:

No.	SCIENTIFIC TERM	G WORD
e.g.	The respiratory organ of fish & many other aquatic animals (4)	Gills
1	The universal force of attraction acting between all matter (7)	
2	Surname of Jane, British scientist known for detailing long-term research on chimpanzees (7)	
3	Greek letter used to denote high-energy radiation produced in radioactive decay (5)	
4	A micro-organism, especially one that causes disease (4)	
5	Semi-metallic element, atomic number 32, named after a European country (9)	
6	Large number written out as 1 followed by a hundred zeroes (6)	
7	State of matter in which atoms or molecules will completely fill any closed container (3)	
8	Unit of mass originally defined as the mass of one cubic centimetre of water (4)	
9	Device consisting of a heavy spinning disc used to provide stability in navigation systems (9)	
10	A system of millions or billions of stars, together with gas & dust (6)	
11	A principal taxonomic rank in biology above species & below family (5)	
12	Study of the human digestive system (16)	
13	Italian natural philosopher, born in 1564, who is considered the 'father of modern science' (7)	
14	Study of handwriting (10)	
15	Metallic chemical element with the symbol Au (4)	
Your Score =		

TABLE QUIZ

Team Name: _____

IDENTIFY THE FOLLOWING 'G's in SCIENCE:

No.	SCIENTIFIC TERM	G WORD
e.g.	The respiratory organ of fish & many other aquatic animals (4)	Gills
1	The universal force of attraction acting between all matter (7)	Gravity
2	Surname of Jane, British scientist known for detailing long-term research on chimpanzees (7)	Goodall
3	Greek letter used to denote high-energy radiation produced in radioactive decay (5)	Gamma
4	A micro-organism, especially one that causes disease (4)	Germ
5	Semi-metallic element, atomic number 32, named after a European country (9)	Germanium
6	Large number written out as 1 followed by a hundred zeroes (6)	Googol
7	State of matter in which atoms or molecules will completely fill any closed container (3)	Gas
8	Unit of mass originally defined as the mass of one cubic centimetre of water (4)	Gram
9	Device consisting of a heavy spinning disc used to provide stability in navigation systems (9)	Gyroscope
10	A system of millions or billions of stars, together with gas & dust (6)	Galaxy
11	A principal taxonomic rank in biology above species & below family (5)	Genus
12	Study of the human digestive system (16)	Gastroenterology
13	Italian natural philosopher, born in 1564, who is considered the 'father of modern science' (7)	Galileo
14	Study of handwriting (10)	Graphology
15	Metallic chemical element with the symbol Au (4)	Gold
